He wanted to let Pastor Scott know that from a medical standpoint, they are dealing with some “heavy duty stuff”, but from an emotional and spiritual standpoint, what is happening in and through Tom Gallant is TOTALLY amazing, and Tom is TRULY “on a special assignment” on this one, Tom is not just saying that!

Tom is being used in an incredible way and Dr. Switzer said he is blessed every time he talks to the man. He really feels that somehow Tom needs to get his story out. Dr. Switzer feels like he is getting all the blessings by being around Tom. He said so often he finishes with a patient and feels totally DRAINED, but with Tom it's different.

Dr. Switzer says that he doesn't think Tom even realizes his testimony and influence is so major. There are 'resident Drs' that want to see him and ask about him, and he is not even their case!

Dr. Switzer didn't know exactly how to “get his story out”, but would love to see it happen, to encourage others.

I thanked Dr. Switzer for calling.
